

Multigrow rockwool – Sustainable rockwool for cannabis, flower and vegetable Growers.

A unique point of Multigrow rockwool is that it contains an all-natural binder (ECOSE®). ECOSE® Technology is a revolutionary, new, formaldehyde-free binder technology, based on rapidly renewable materials instead of petro-based chemicals. It reduces embodied energy and delivers superior environmental sustainability.

Multigrow rockwool is sterile and therefore free of diseases, insects and weeds. Multigrow rockwool has an optimal balance of water holding capacity and porosity which leads to healthy, fast-growing plants!

Multigrow rockwool has a wide range of plugs, cubes, blocks and slabs which can be used for propagation and cultivation of cannabis, flowers, and vegetables.

Propagation plugs

Propagation cubes

Growing blocks

Multigrow growing slabs

Multigrow is the third largest rockwool brand, it is made in Europe and sold by Benfried b.v. from The Netherlands to growers all over the world.

In Australia and New Zealand Roskam Pty Ltd is the agent for the Benfried Multigrow rockwool. The rockwool slabs will be sold under the Multigrow brand name. The rockwool plugs, cubes and blocks are sold under the Speedgrow or Speedgrow Green brand name.
